

Help End Local Poverty (H.E.L.P.) is a global tribe dedicated to ending extreme poverty by helping to rescue orphans, restore their hope and renew their communities.

Every day, all over the world, there are children that are living alone. These children were created in God's image. **They were not meant to live in dumps, fields, alleys, streets, and parks.** They have been abandoned, usually due to issues like AIDS, war, and extreme poverty, or sometimes because their parents simply don't care enough to love and provide for them.

It is absolutely heartbreaking, **but there is hope!** You and I. We can be that hope. We can do what God did for us. We can rescue these kids, give them a place to belong, help build a community of love and support, and give them hope for a future.

We can get involved in their story, show them love, and restore their hope.

We can build children's homes that are run by local leaders who will love these kids, help raise them, and prepare them to lift themselves out of poverty. We can help build water wells to provide clean water for their communities. We can give local leaders encouragement and support in their efforts to take in these abandoned children.

Through our new campaign, **Garage Sale For Orphans**, you can play a huge part in ending extreme poverty.

SELL.

Sell anything that you don't need or want, and that you are willing to sacrifice.

GIVE.

Give the proceeds of the garage sale and help rescue kids in places like Haiti, Zimbabwe and Uganda. You can even choose which country and project you want to donate to directly on our website.

HELP.

One of the ways we can help end local poverty is to give sacrificially to key projects that will help these communities lift themselves out of poverty. You and I *can* make a difference!

Why Garage Sales?

We wanted to create a simple way for everyone to get involved and help orphans and communities who are struggling due to extreme poverty! Throwing a **Garage Sale Party** is something everyone can do. It's also a great way to bring your community together. Kids groups, schools, churches, small groups, youth groups, businesses, families, individuals...the list goes on! We can all come together, work hard, and sell stuff, and it will all help rescue abandoned orphans.

Party?

Yes!!! We think it's not just a "garage sale" where you can get rid of junk. I mean, most garage sales are BORING! We want it to be a party!!! We want you to let your neighbors and communities know that **you're making a difference in the world.** So, get your community involved, have fun, work hard, and know that you and your community are making a difference!
